Catalog Information

The mission of The School of Tourism and Hospitality Management is to prepare intellectually-developed experts and an occupational work force that will answer the long term needs of the world tourism sector and all its fields, to educate people who are sensitive to the environment and nature, and to prepare qualified administrators or leaders for the world tourism sector.

The aim of the Associate of Applied Sciences Program is to prepare students for supervisory positions in the hospitality and travel industries. The new curriculum is revised to meet the demands of the industry today, and to respond to the demands which will arise as the industry develops; students are trained in innovative approaches to the concept of tourism and hospitality and exposed to new ideas and concepts to prepare them for the future. Upon completion, they will be able to select from a wide range of career paths, and the specialized training provided by their studies will give them clear advantages in the developing sectors of the economy. In view of the practically-oriented nature of the tourism and hospitality industry, 60 days of industrial experience in both branches of the program are required as partial fulfillment of graduation requirements; industrial experience both ensures continuing collaboration with the industry, and guarantees that graduates of the programs enter the workforce with sound practical as well as theoretical knowledge of tourism and hospitality management.

The TedQual Quality Assurance Certification System for Education, and programs specialized in Tourism created by the World Tourism Organization through WTO-THEMIS Foundation in 1988, were developed with the aim of contributing to the achievement of quality and efficiency in Tourism Education and Training. The TedQual Certification System is the most internationally accepted quality assurance system for Tourism Education and Training. The two-year tourism and hospitality management program of the School of Tourism and Hospitality Management has been approved by World Tourism Organization-THEMIS Foundation for TedQual Certification.

Considering the needs of the tourism sector, the school emphasizes both practical training as well as theoretical education. To serve this purpose, the demo kitchen, the internationally recognized computer programs Fidelio, Galileo, and Amadeus all aim to provide students with practical knowledge and an education which matches the needs of the scientific and technological era. Students who choose the hospitality management stream, have the opportunity to do their internship in 5- and 4-star hotels, such as, Hilton, Sheraton, Swissotel, Marriott, Radisson SAS Hotels, and they are offered jobs in these organizations as soon as they graduate. Students who choose the travel management stream, have the opportunity to do their internship in the travel agencies, airlines and tour operators, like Cyprus Turkish Airlines, Turkish Airlines, ETS, Asyatur, Jolly Tour, Oger Tour, and they are also offered jobs in these organizations as soon as they graduate.
